This referral program is effective as of **Jan 1, 2019** for referrals received by IaR after that date • In order to participate, you must be a member of: an IaR subscriber; an emergency management entity that oversees an IaR subscriber; or a dispatch center that dispatches at least one IaR subscriber • Points are tracked based on the individual referring new IaR subscribers, not based on their department/agency • If you are a member of a non-group IaR subscriber, **your department or agency will also receive one free month of IaR service** for every new agency/department that subscribes to IaR due to your referral • Some items have limited quantities and sizes, so the availability of some items may be limited • IaR reserves the right to end this referral program at any time, but will allow any points accumulated as of that date to be redeemed for items comparable to the ones depicted above • If you refer a group or regional subscriber, you may earn a maximum of 500 points for that referral • If you cannot receive/accept material goods, a comparable value donation will be made to the NFFF, CFFF, or other comparable organization determined by IaR.

# IaR Referral

We LOVE referrals from our subscribers! We'll provide you with redeemable reward points for every referral that results in a new subscription, and we'll also provide a **free month extension** of your current, individual department subscription for every referral that results in a new department subscribing. You keep referring, and we'll keep rewarding!

*If your department is part of an existing group subscription, we unfortunately can't extend that group subscription, but we will provide your department with a \$25(US) Visa gift card to show our appreciation for your referral!*

**You can either return this form, or send referral information directly through your IaR app via the "Free Benefits" tab in your IaR app menu.**
